

Computer requirements for Audaces software usage

This article aims to present the minimum and recommended hardware and software requirements for the use of Audaces systems.

You will find two configuration options, the minimum and the recommended one. The minimum configuration shows those essential for the system to work. For best performance of Audaces system features, use the recommended settings.

Attention:

- Audaces apps are not compatible with the following operating systems: **Windows Home** and **Windows Starter**.
- For the installation and use of the applications that are part of the Audaces 360 package, the Windows user must have administrator privileges. Some Audaces software processes require permissions to write to certain folders or modify the Windows registry, and restricted users do not have the privileges to complete these modifications. Therefore, if you are logged into the system as a normal user without administrator privileges, the software cannot access the Windows registries necessary for such processes and promote proper operation.

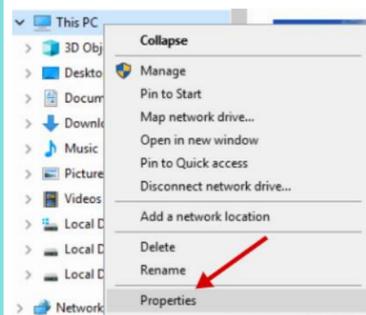

Attention

- Audaces GO does not work in a virtual machine;
- Audaces GO does not work on a TS server.

Below are the minimum and recommended hardware and software requirements for proper operation of Audaces systems according to your 360 package.

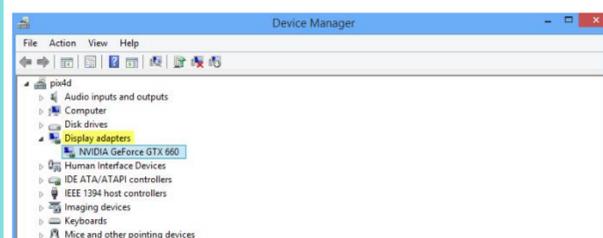

Tip

To find out what your computer's settings are, type  , Right-click on **This Computer** and **Properties**:

A Systems window will open where you can check your Processor and RAM.

To check the **Video Card**, search for **Device Manager** in the Windows menu, and click on the arrow next to **Display adapters**:

See the settings:

Packages: 360 Enterprise - Pro - Creative - Student

Minimum Configuration:

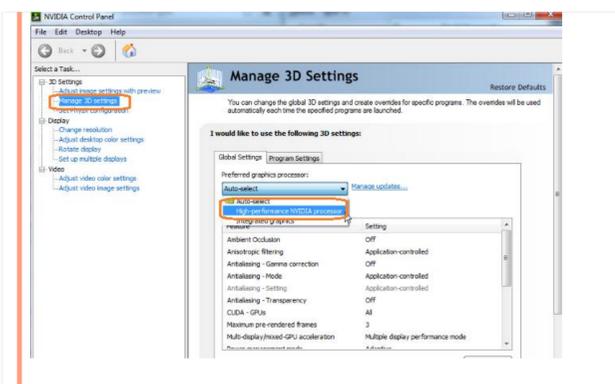

- Windows 10 Pro 64 Bits;
- 8th generation or higher Intel Core i7 processor, 2.5 GHz;
- Resolution 1920 x 1080 pixels;
- 5 GB of hard disk space;
- 8 GB of RAM memory;
- NVIDIA GTX 750 video card;
- Monitor 17";
- Keyboard and mouse with scroll.

Recommended Configuration:

- Windows 10 or 11 Pro 64 Bits;
- Intel Core i7 processor, 8th generation or higher (Ivy Bridge);
- 10 GB of hard disk space;
- 16 GB of RAM memory;
- NVIDIA GTX 960 video card;
- Monitor 19";
- Keyboard and mouse with scroll.

Attention

To promote the correct functioning of Fashion Studio, it will be necessary to open the control panel of the video card and in the option **Control 3D settings > Global settings**, select the option **NVIDIA high-performance processor**.

Packages: 360 Basic - Classic

Minimum Configuration:

- Windows 10 Pro 64 Bits;
- 8th generation or higher Intel Core i5 processor, 2.5 GHz;
- Resolution 1024 x 768 pixels;
- SVGA video;
- 1 GB of hard disk space;
- 8 GB of RAM memory;
- Monitor 17";
- Keyboard and mouse with scroll.

Recommended Configuration:

- Windows 10 or 11 Pro 64 Bits;
- 8th generation or higher Intel Core i7 processor, 2.5 GHz and six core;
- Resolution 1280 x 1024 pixels 32-bit color;
- SVGA Video;
- 1 GB of hard disk space;
- 16 GB of RAM memory;
- Monitor 19";
- Keyboard and mouse with scroll.

3D

Minimum Configuration:

- Windows 10 Pro 64 Bit;
- 64-bit Intel or AMD multi-core processor;
- Resolution 1920 x 1080 pixels;
- Video card Nvidia GeForce GTX 980 or Nvidia Quadro P4000 or AMD RX 590;
- 5 GB of hard disk space;
- 8 GB of RAM memory;
- Keyboard and mouse with scroll.

Recommended Configuration:

- Windows 10 64 Bit;
- 64-bit Intel or AMD multi-core processor;
- Resolution 2560x 1440 pixels, 4k;
- Video card Nvidia RTX 2080 or Nvidia Quadro RTX 6000 or AMD RX 5700XT;
- 10 GB of hard disk space;
- 16 GB of RAM memory;
- Keyboard and mouse with scroll.

If you prefer, through the list below, you can consult the requirements for each Audaces system:

GO

Minimum Configuration:

- Internet access;
- Windows 7 Pro 64-bit, Windows 8 Pro 64-bit, Windows 10 Pro 64-bit and Windows 11 Pro 64-bit;
- Core i5 processor;
- 1 GB of hard disk space;
- 8 GB of RAM memory

Attention

- Audaces GO does not work in a virtual machine;
- Audaces GO does not work on TS server.

ISA

- Windows 10 or 11 Pro 64 bit;
- Intel Core i5 processor;
- Resolution 1280 x 1024 pixels 32 bits of color;
- SVGA video;
- 1 GB of hard disk space;
- 8 GB of RAM memory;
- Keyboard and mouse with SCROLL;
- Google chrome Version 70.0.3538.110 or Mozilla Firefox version 63.0.3
- Internet access;

Digiflash

- Windows 7 Professional 64 Bit, Windows 10 o 11 Pro 64 Bit;
- 8th generation or higher Core i5 2.5 GHZ processor, quad core;
- 1 GB hard drive space;
- 4 GB of RAM memory;

Digiflash XT

Minimum Configuration:

- Windows 10 o 11 Pro 64 Bit;
- 8th generation or higher Core i5 processor, quad core;
- 1 GB hard drive space;

- 4 GB of RAM memory; (If it is Windows 10, 8 GB is required)
- Video card with a minimum of 256 colors;
- USB port available for connection to the device;

IDEA

Minimum Configuration:

- Windows 10 Pro 64 Bit;
- 8th generation or equivalent Intel Core i5 processor, 2.5 GHz quad core;
- Resolution 1024 x 768 pixels;
- SVGA video;
- 4 GB of hard disk space;
- 8 GB of RAM memory;
- Monitor 17";
- Keyboard and mouse with SCROLL;

Recommended Configuration:

- Windows 10 or 11 Pro 64 Bit;
- 3rd generation Intel Core i7 processor (Ivy Bridge);
- Resolution 1280 x 1024 pixels 32-bit color;
- SVGA video;
- 8 GB on hard drive;
- 16 GB of RAM memory;
- Monitor 19";
- Keyboard and mouse with SCROLL;

Fashion Studio

Minimum Configuration:

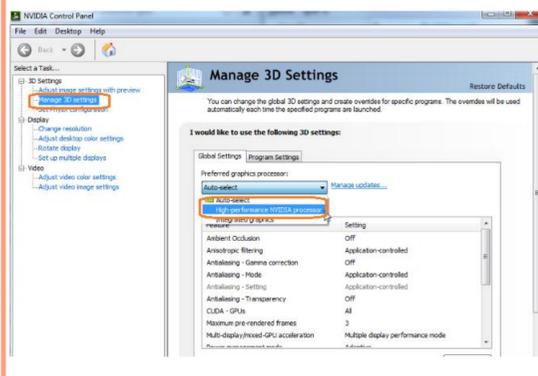

- Windows 10 Pro 64 Bit;
- 8th generation or higher Intel Core i7 processor;
- 5 GB of hard disk space;
- 8 GB of RAM memory;
- NVIDIA GTX 750 video card;
- Monitor 17";
- Keyboard and mouse with SCROLL;

Recommended Configuration:

- Windows 10 or 11 Pro 64 Bit;
- 8th generation or higher Intel Core i7 processor (Ivy Bridge);
- 10 GB of hard disk space;
- 16 GB of RAM memory;
- NVIDIA GTX 960 video card;
- Monitor 19";
- Keyboard and mouse with SCROLL;

Attention

To promote the correct functioning of Fashion Studio, it will be necessary to open the control panel of the video card and in the option **Control 3D settings > Global settings**, select the option **NVIDIA high-performance processor**.

Supera - Supera Max (Server)

Note

The Supera uses computer processing to generate the markers. In this way, the better the performance of the computer, the better results of use will be obtained.

Minimum Configuration:

- Windows 10 Pro 64 Bit;
- Intel Core i7 2.5GHz 8 thread processor;
- Resolution 1024 x 768 pixels;
- SVGA video;
- 4 GB of hard disk space;
- 8 GB of RAM
- Monitor 17";
- Keyboard and mouse with SCROLL;
- USB 2.0 port.

Recommended Configuration:

- Windows 10 or 11 Pro 64bit;
- Intel Core i7 3.60GHz processor and six core (12 threads)
- Resolution 1280 x 1024 pixels 32-bit color;
- SVGA video;
- 8 GB of hard disk space;
- 32 GB of RAM memory;
- Monitor 17";
- Keyboard and mouse with SCROLL;
- USB 2.0 port.

Supera - Supera Max (Client)

Minimum Configuration:

- Windows 10 Pro 64 Bit;
- 2.5GHz quad core processor;
- Resolution 1024 x 768 pixels;
- SVGA video;
- 4 GB of hard disk space;
- 8 GB of RAM memory;

- Monitor 17”;
- Keyboard and mouse with SCROLL;
- USB 2.0 port.

Recommended Configuration:

- Windows 10 or 11 Pro 64bit;
- Intel Core i5 processor, 2.5 GHz and quad core;
- Resolution 1280 x 1024 pixels 32-bit color;
- SVGA video;
- 4 GB of hard disk space;
- 16 GB of RAM memory;
- Monitor 19”;
- Keyboard and mouse with SCROLL;
- USB 2.0 port.

Pattern

Minimum Configuration:

- Windows 10 Pro 64 Bit;
- 8th generation or equivalent Core i5 2.5GHz processor;
- Resolution 1024 x 768 pixels;
- SVGA video;
- 4 GB of hard disk space;
- 8 GB of RAM memory;
- Monitor 17”;
- Keyboard and mouse with SCROLL;

Recommended Configuration:

- Windows 10 or 11 Pro 64 Bit;
- 8th generation or equivalent Intel Core i7 2.5GHz six-core processor;
- Resolution 1280 x 1024 pixels 32 bits of color;
- SVGA video;
- 4 GB of hard disk space;
- 16 GB of RAM memory;
- Monitor 19”;
- Keyboard and mouse with SCROLL;

Marker

Minimum Configuration:

- Windows 10 Pro 64 Bit;
- 8th generation or equivalent Core i5 2.5GHz processor;
- Resolution 1024 x 768 pixels;
- SVGA video;
- 4 GB of hard disk space;
- 8 GB of RAM memory;
- Monitor 17”;
- Keyboard and mouse with SCROLL;

Recommended Configuration:

- Windows 10 or 11 Pro 64 Bit;
- 8th generation or equivalent Intel Core i7 2.5GHz six-core processor;
- Resolution 1280 x 1024 pixels 32 bits of color;
- SVGA video;
- 4 GB of hard disk space;
- 16 GB of RAM memory;
- Monitor 19”;
- Keyboard and mouse with SCROLL;

Apparel

Minimum Configuration:

- Windows 10 Pro 64 Bit;
- 8th generation or equivalent Core i5 2.5GHz processor;
- Resolution 1024 x 768 pixels;
- SVGA video;
- 4 GB of hard disk space;
- 8 GB of RAM memory;
- Monitor 17”;
- Keyboard and mouse with SCROLL;

Recommended Configuration:

- Windows 10 or 11 Pro 64 Bit;
- 8th generation or equivalent Intel Core i7 2.5GHz six-core processor;
- Resolution 1280 x 1024 pixels 32 bits of color;
- SVGA video;
- 4 GB of hard disk space;
- 16 GB of RAM memory;
- Monitor 19”;
- Keyboard and mouse with SCROLL;

Ultraspool

Minimum Configuration:

- Windows 7 Professional 64 Bit;
- 2.0GHz Duo core processor;
- Resolution 1024 x 768 pixels;
- SVGA video;
- 4 GB of hard drive space;
- 4 GB of RAM memory;
- Monitor 17”;
- Keyboard and mouse with SCROLL;

Recommended Configuration:

- Windows 7 Professional 64 Bit and Windows 10 Pro 64 Bit;
- Core i5 processor;
- Resolution 1280 x 1024 pixels 32 bits of color;
- SVGA video;
- 4 GB of hard disk space;
- 8 GB of RAM memory;
- Monitor 19”;
- Keyboard and mouse with SCROLL;
